Description

Pile (Haemorrhoid) is a common condition in Nigeria caused by chronic constipation, straining during bowel movements, low-fiber diet, pregnancy, or prolonged sitting. Symptoms include rectal pain, itching, bleeding, and swelling around the anus. If left untreated, piles can become severe and greatly affect daily comfort and lifestyle.

The **Kedi Pile Treatment Solution** combines **Constilease** and **Colon Cleanser** to target the root cause of haemorrhoids and provide natural, long-lasting relief. This herbal combination improves digestion, eases constipation, and reduces swelling, helping patients regain comfort and bowel regularity.

Key Benefits

- Relieves constipation and ensures smooth bowel movement

- Reduces rectal pain, swelling, and itching
- Prevents straining during stool passage
- Promotes colon cleansing and detoxification
- Supports long-term digestive and bowel health
- 100% natural and safe for continuous use

Recommended Kedi Products for Pile (Haemorrhoid)

- **Constilease** – effective herbal formula that relieves constipation and improves bowel function
- **Colon Cleanser** – detoxifies the digestive system and supports colon health for long-term relief
